

Information Regarding Temporary Triples:

Due to an increased demand for student housing for the fall 2009 semester, Housing & Residence Life will be temporarily tripling double rooms in Lyden House. Here are a few details about this situation:

- We will triple approximately 10 rooms for each gender.
- Students will be moved into doubles as soon as spaces become available.
- Each student will have the same complement of furniture (bed, desk, dresser and wardrobe).
- Though each room contains only two data ports, wireless internet access is available throughout Lyden House, and therefore the shortage of ports shouldn't interfere with internet access.
- Students who are still tripled in double rooms (not in rooms designed to be triples) past the 2nd week of the semester will receive a \$400 credit on their room and board fees.

We appreciate your understanding, patience and cooperation as we work through this period of high occupancy. If you have questions about this situation, please contact the Office of Housing & Residence Life at 330-941-3547.
